Yes, are already drafting an Nov.

Would you and Gwen like a list of spill sites currently being worked on for some type (loan, esa, nov) of enforcement? I will send it when back in the office.

There was another saltwater spill reported on 10/12 on ft berthold by arrow water? Anyone check that out?

Karl

Hi Karl,

Hope you are doing well. Gwen was wondering if you are planning to take any action on the Oasis Petroleum, Inc. brine spill 11 miles NW of Arnegard?

It looks like the spill occurred about 11 miles NW of Arnegard, so that means it was on state lands. See article below:

Another pipeline brine spill in the Bakken. This time it was Oasis Petroleum Inc. The spill reached a creek that drains into Lake Sakakawea. I will start researching to see if the spill was on the Ft. Berthold.
